SKILLS

- Advanced knowledge in Python, R
- VBA, Tableau, SQL, C++
- Teamwork and collaboration
- Problem-solving ability
- Analytical thinking and data analysis skills
- Leadership and decision-making ability

LANGUAGES

- English (C1)
- German (B2)

PROFILE

I am a master's student specializing in Financial Mathematical Analysis with an interest in mathematics, statistical modeling and programming.

EXPERIENCE

Risk Model Validator – OTP Group

- Developed a customizable, automated Time Series Validator tool in Python
- Helped to develop the Group Level Non-Credit Risk Model Validation and Development Regulations
- Validated various types of Credit, Market and Liquidity Risk Models

EDUCATION

(2023-2028) Corvinus University of Budapest, *Economic and Financial Mathematical Analysis, MSc*

Relevant courses: Quantitative Finance, Macroeconomics, Empirical Analysis, Deep Learning and Neural Network, Algorithm Theory, Time-Series Analysis, Econometrics, Statistics, Probability Theory, Linear Algebra

PROFESSIONAL ACTIVITIES

FAKT College for Advanced Studies

- 2025 – 2026: **Vice President of Finance, Corporate Relations**
    - Responsible for the organization's year-round financial plans. Organizing competitions and lectures. Leading a division built of two teams, around 10-15 people.

Teaching Assistant

- Courses: Econometrics, Time – Series Analysis, Statistics

Competitions

- I. GEM x Morgan Stanley Statistics Competition, 2025: II. place

RESEARCH

Student Scientific Conference

- *Resilience and Urban Dynamics of Budapest's Public Transport Network: Impacts of Real Estate Investment and Population Mobility*
    - GTFS-Based Network Accessibility Analysis, Transport Network Accessibility Modeling, Graph-Based Urban Accessibility Analysis
- *A Spatiotemporal Analysis of Educational Frameworks Across the European Union*
    - Spatial Panel Modelling, Spatial Autocorrelation, Machine Learning
- *A Bayesian Dirichlet Approach to Uncertainty Quantification in Multiparty Election Polling*
    - Bayesian, Hierarchical MCMC with Stan
